

Protocol of the Founding Session of the section for skeletal trauma and sport medicine

Room Antalya, Papp Laszlo Sportarena, Budapest, 10 to 11 am, 25th May2008

Chair: H.J. Oestern , Protocol: D. Heim

Scope of the section: „a working group“

- responsible for scientific sessions in congress (proposals of topics)
- forum for open questions of the topic (Vermittlung of experts)
- working group and adviser for the administrative ESTES board
- platform for collection of rare cases
- provide its members/ members of the ESTES additional training courses and workshops by advertising them on the ESTESwebsite (via general secretary of ESTES), bargain for reduced fees for ESTES members for these events

Means of information for its members: e-mail

Membership fees: none

Bylaws of the section: the same as for the other sections (don't complicate things)

Concrete steps for the oncoming congresses:

- organising 10 sessions for scientific programm
- organising precourses (preregistration and fees)
- ESTES-patronage of skeletal- and sport injuries-relevant courses and workshops outside of ESTES activities
- Select one (body)region per congress

Congress 2009, Antalya: topic „lower extremity“

- open fractures (I. Marzi/ V. Sewekovic)
- Sport injuries: knee and ankle (H. Resch/ M. Maier)
- Research: - skeletal (I. Marzi/ D. Heim)
- Research: - sport injuries (M. Maier, H. Resch)
- Spine (P. Wendsche, Ch. Josten)

Congress 2010 Brussels: topic „upper extremity“

Structure of the sessions:

- keynote lecture (numbers along to budget to define)
- Free papers to the topic

The preliminary program has to be sent in for UEMS credit points 2-3 months prior to the congress

EBQS exams:

- should be possible also during ESTES Congresses
- next EBSQ Traumatology 23rd October 2008, International congress Center, Berlin (info: hans-joerg.oestern@akh-celle.de)

Dh; Budapest 25th May 2008 2.30 pm
